About us

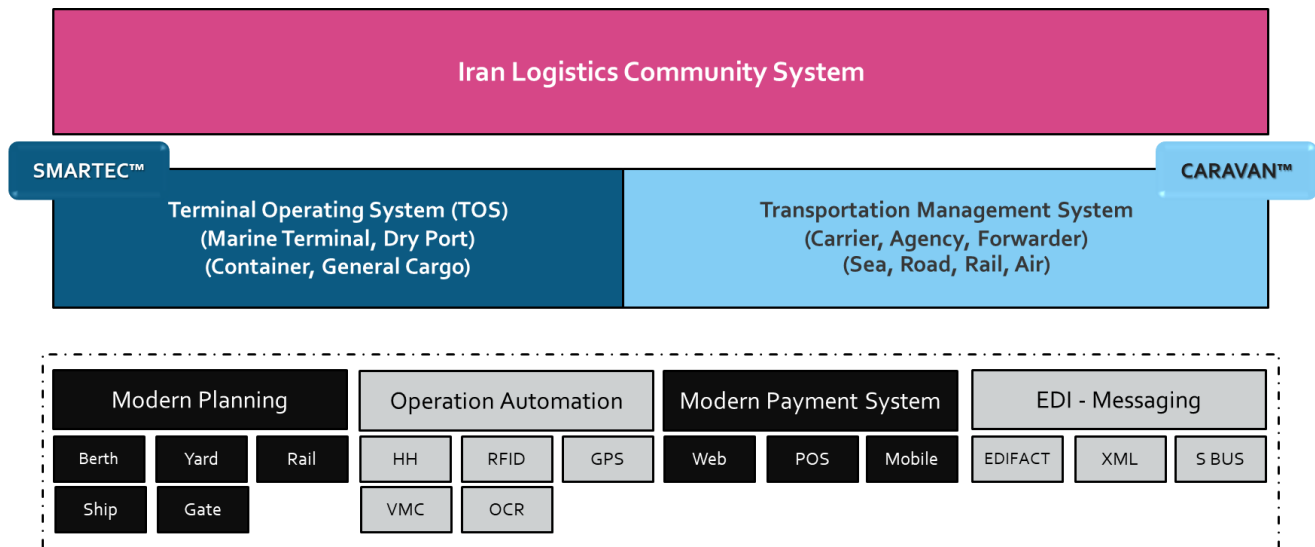

IRANIAN NABAFZAR, is a provider of operational technologies and services that unlock greater performance and efficiency for the Iran's leading organizations across the cargo supply chain. NABAFZAR combines industry best practices with innovative technology and world-class services, to enable our customers, regardless of cargo type, to maximize performance and reduce risk. Through its holistic approach to operational optimization, NABAFZAR customers benefit from improved visibility, velocity and measurable business results.

-  Certified by Iran's High Council of Informatic
-  Member of Computer Association of Iran
-  Member of Shipping Association of Iran

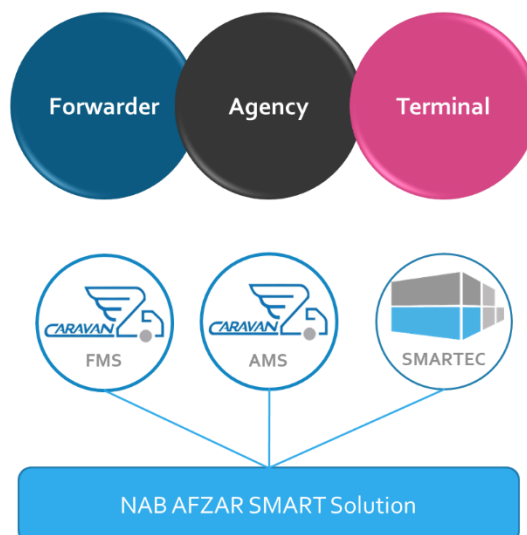

Products & Services

NABAFZAR products and services are innovative solutions for Terminals and Transportation companies. The ultimate goal of NABAFZAR is connecting the cargo and container supply chain.

CONNECTING THE CARGO & CONTAINER SUPPLY CHAIN

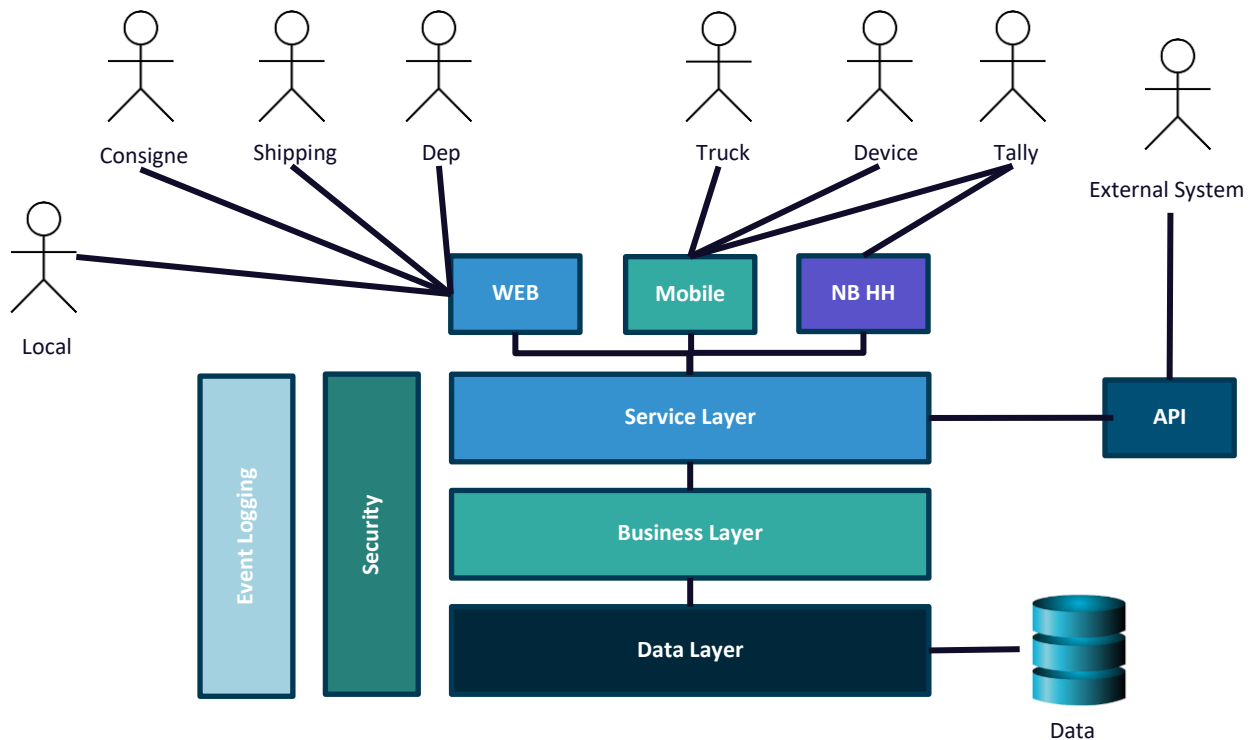

SMARTEC™

SMARTEC is a product of NABAFZAR and a modern platform for managing the operations of container terminals, the use of which promotes the efficiency of terminal resources, increases the quality of terminal services and customer satisfaction.

The adaptability of this platform prevents cost increases by changing the size and specifications of the business. The software's modular architecture allows activation / deactivation of operating cycles as well as terminal automation tools with minimal complexity.

SMARTEC has provided a new approach to interaction with terminal customers and electronic information exchange in the supply chain.

Effective and on-line financial management is the result of using SMARTEC software. Complete connection of operational and financial processes ensures the issuance of invoices for all terminal services and zero error in the issuance of invoices and thus reduces the time gap between the issuance of invoices and invoices.

SMARTCE covers all type of terminals:

- Marine Terminal
- Dry Terminal
- Rail Terminal
